

# About

My Book Log is a web application that allows users to create profiles of the books they had read they can rate the book, specify when they started reading the book and when they finished it if they re-read it. The profile comes with a form asking you the name of the main characters And your opinion what did you like? What didn't you like? Your summary of the book, favorite quotes and if you would read it again. The profiles are private, but you can share your rating and the quotes you liked by mail or social networks.

## Target Audience

My Book log is for every reader who wishes to keep track of the books he/she has read without forgetting what they thought about the book what they liked and what they didn't.
